In order to achieve good results in the entrance into the ideal of higher learning, students learn in high school is essential. Into the high school stage, students learn the content is very complicated, many subjects, a large amount of knowledge, if there is no scientific way of learning, can not only rely on memory alone to improve academic achievement. We must first sharpen his tools. Any one discipline of study is a method, and techniques. Characteristics for high school students, we hired the prestigious Beijing has extensive experience teaching grade teacher, based on years of teaching experience, level of learning for different students, to provide effective performance-enhancing methods and techniques to guide students According to the teacher's method and the actual situation with their own practice. Super secret teacher about the college entrance examination scores, in both learning guidance, but also the know-how pointing entrance examination, the teacher through the actual operation of a typical example to illustrate what each step should be to pay attention to specific issues. Explain the book to learn methods and techniques, some Apply type, that this method is suitable for specific types of questions, the application can apply when, can help students solve learning problems commonly encountered in the process; Some are suggestive, and that this approach is to solve a class of kinds of questions provides a guideline, students should also be considered when the application subject to the restrictions proposed. Hope that through the teacher's coaching to get through the candidate's knowledge of context, to see through the essence of the phenomenon, discovered the laws of learning, to improve learning efficiency....
