Brand New Book ***** Print on Demand *****.Western democracies must go on the offensive to promote the continued development of free will, individual rights, human rights, religious freedom, and plurality as they evolved within the Judeo-Christian experience. Sometimes this must take place within western societies themselves but more often than not it must be pursued between national governments. Reading this book will give people an appreciation of the philosophical significance of what it means to be a Jewish or Christian living in our current time period. This book will give an overall context for people who believe in democracy and individual rights to take...
