RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 44 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1898 Excerpt: . . . of 10 per cent. ammonia a. nd more, and will, in this 9 form, bring the highest price. In large fertilizer factories where soluble phosphates are produced by dissolving Carolina rock or bone in sulphuric acid, a great deal of this tank water can be used for diluting the sulphuric acid, instead of mixing water with it. The entire amount of ammonia is utilized in this manner, and is contained in the resulting super-phosphate. The dried tank water has also been tried in the manufacture of cyanide and yellow prussiate sulphate and carbonate of ammonia. MEMORANDA MEMORANDA The Evaporation of Clue in Vacuum Pans. We have called attention to the necessity of reducing the temperature for cooking glues in time as well as intensity as much as possible in order to obtain the best grades of glue from the raw material in process. It is desirable...
