## AFRICAN RELIGIONS: A VERY SHORT INTRODUCTION

Oxford University Press Inc. Paperback. Book Condition: new. BRAND NEW, African Religions: A Very Short Introduction, Jacob K. Olupona, Africa is home to hundreds of ethnic groups, who together speak more than a thousand languages. Monarchs, chiefs, and elders play both political and religious roles, imparting secular and spiritual guidance to their subjects, while also being guardians of religious centres such as shrines, temples, and sacred forests. The author also examines the spread of Christianity and Islam throughout Africa, both the moderate sects (which often blend aspects of indigenous faith into their own practice) and the more extreme fundamentalist sects, which the author states have had a dire effect on African life. In fact, radical forms of Christianity and Islam-both of which decry tradition religion as paganism-have driven a near total collapse of indigenous practice. But if traditional religions are engaged in a battle for their lives in Africa, Olupona shows that they are thriving elsewhere in the world-particularly...
