Reviews

A brand new electronic book with a new standpoint. It is written in basic phrases rather than confusing. It has been designed in an extremely basic way which is merely right after I finished reading through this publication where basically altered me, change the way I believe.

Mr. Darwin invented the theory of a continuous force which, beginning at a protoplasm, develops into every form of life, of consciousness, or of conscience. This involves all organic and all inorganic substance. The simplicity of this theory was thought to solve all problems of existence. It was eagerly accepted, illustrated, and set forth as the end of all controversy in respect of the creational mind and methods. It satisfied all who were willing to reduce everything to natural law with its cast-iron necessity. It relieved humanity thereby from all responsibility. It presented to the insatiable conscience a theory of human life and condition which must still its clamors and endless protests once and forever. This mighty chain of created fate consisted of many adamantine links, which defied all interruption. As usual, the whole world seemed for a time captivated and carried away with this marvelous solution of moral law and of all spiritual life; it set free the slave of mortal fear; it released man from the hot shackles of Sinai; it enthroned nature in all her moods of terror and beauty as the one mistress of the world; it drove back the tyranny of inspiration into the dim regions of star-dust, and offered an undisturbed sleep to all the sons and daughters of humanity in nature s ceaselessly recurring seasons of death and life; it transformed all immortality into a dream of the past. Mr....
