"Plexiberg" (2016) is a complex layering of material and light where the light emitted from the lens of the projector, bounces off of the surfaces of the physical objects, creating an immersive maze and a visual riddle. Playing heavily with the translation between two-dimensional and three-dimensional space, this deconstructed iceberg is accompanied by the sounds of melting ice from the Arctic. The artist's embrace of sensory experience is further amplified in "Pingo" (2016), in which changes in floor elevation demand from the viewer...
