

## Chemical Word Scrambles Anyone Can Do (Hard): Verbal Puzzles Using Symbols from Chemistry s Periodic Table

By Carolyn Kivett, Chris McMullen

Createspace, United States, 2011. Paperback. Book Condition: New. 254 x 203 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Chemical word scrambles are an exciting new form of word puzzles. You don't need to know any chemistry! These chemical word scrambles will appeal to all word puzzle lovers, whether or not they also enjoy science. Each word is composed of symbols from the periodic table, instead of letters; but you don t need to be familiar with the periodic table to solve the word scrambles. Here is an example: The words BRain PoWEr are composed of the following symbols for chemical elements: B for boron, Ra for radium, In for indium, Po for polonium, W for tungsten, and Er for erbium. In chemical word scrambles, the words have been scrambled by rearranging the symbols - not the letters. Symbols that have two letters - like He for helium and Nd for neodymium - can t be split or have their letters reordered. This creates a significant distinction between ordinary word scrambles and chemical word scrambles. For example, the symbols Er, V, S, and Es may be combined to form the word SErVEs, but not the word...

## Reviews

Great electronic book and useful one. It can be writter in straightforward terms rather than difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Kian Harber

Thorough manual! Its this kind of excellent study. It really is writter in straightforward terms and never difficult to understand. I am very happy to inform you that this is basically the very best pdf we have read through during my individual existence and could be he greatest ebook for possibly.
